PROFILE

Full Stack Developer with hands-on experience building modern web applications using React, Angular and TypeScript, with backend integration in Laravel and REST APIs.

Focused on scalable architecture, authentication systems and data flow between frontend and backend.

Strong foundation in HTML, CSS and JavaScript, with real-world projects involving API design, CRUD operations and full application lifecycle.

Background in design and digital marketing, bringing strong UX awareness and product-oriented thinking.

TECHNICAL SKILLS

Frontend: React · Angular · TypeScript · JavaScript (ES6+) · HTML5 · CSS3 · Responsive Design

Backend: Laravel (PHP) · REST APIs · Authentication (JWT / Token-based) · CRUD operations

Database: MySQL · SQL (basic queries)

Tools & Practices: Git · API Integration · UX/UI · State Management

PROJECT EXPERIENCE

TeamPulse — Task Management App

- Built a full-stack application using Angular and Laravel
- Implemented authentication with token persistence and protected routes
- Developed CRUD features with real-time UI updates and backend integration
- Designed and integrated REST API communication and optimized frontend performance

MiniCMS — Admin Panel

- Built an admin panel using React and Laravel for managing dynamic content
- Implemented CRUD operations with real-time updates and user feedback (toasts)
- Integrated REST APIs and handled data fetching, filtering and search functionality
- Designed a clean and intuitive UI focused on usability and content management workflows

Reino Zimbabwe — Frontend Interactive Experience

- Developed an interactive frontend experience using React focused on dynamic UI and storytelling
- Implemented reusable components and responsive layouts for multiple screen sizes
- Integrated animations and visual effects to enhance user engagement and navigation
- Structured the project with a component-based architecture for scalability and maintainability
- Focused on UX/UI design to create an immersive and visually consistent experience

EDUCATION

Web Development (Frontend & Backend) – SEPE (2025)

Advanced React – Meta (2026)
