PROFILE

Frontend Developer with hands-on experience building modern, scalable web applications using React, Angular and TypeScript with a strong focus on performance and user experience.

Focused on API integration, authentication systems and building scalable frontend architectures.

Background in design and digital marketing, bringing strong UX awareness and product thinking.

TECHNICAL SKILLS

JavaScript (ES6+) · TypeScript · React · Angular · HTML5 · CSS3

REST APIs · Git · Responsive Design · UX/UI · State Management (RxJS / React)

PROJECT EXPERIENCE

TeamPulse — Task Management App

- Built a full-stack application with Angular and Laravel
- Implemented authentication with token persistence and route protection
- Developed CRUD features with real-time UI updates
- Integrated REST APIs and optimized frontend performance

MiniCMS — Admin Panel

- Built an admin panel using React and Laravel for managing dynamic content
- Implemented CRUD operations with real-time updates and user feedback (toasts)
- Integrated REST APIs and handled data fetching, filtering and search functionality
- Designed a clean and intuitive UI focused on usability and content management workflows

Reino Zimbabwe — Interactive Web Experience

- Developed an interactive frontend experience using React focused on dynamic UI and storytelling
- Implemented reusable components and responsive layouts for multiple screen sizes
- Integrated animations and visual effects to enhance user engagement and navigation
- Structured the project with a component-based architecture for scalability and maintainability
- Focused on UX/UI design to create an immersive and visually consistent experience

EDUCATION

Advanced React – Meta (2026)

Web Development (Frontend & Backend) – SEPE (2025)
